BOSTON, Octob. 8.

On Friday last His Excellency, our Governor sent the following Message to both Houses of Assembly, *viz.*

Gentlemen of the Council, and of the House of Representatives,

AT the last Session I communicated to you, what I had receiv'd from Mr. Agent Wilks *respecting the Bill for emitting* 60,000 l. *since which I have from him the further following Account.*

LONDON, *August* 10. 1739.

SIR,

I Now inclose you a Copy of the Lords of Trade's Report about the Paper Currency, which was read in Council and refer'd to a Committee on the 9th of *July*, when I took the first Opportunity to obtain a Copy, and finding some Things in it which I thought the Province could not comply with, I waited on my Lord President and acquainted him with what Distress I apprehended the People would be put under for want of a Currency; and that an Order of Council conformable to the Board of Trade's Report would be of no Use for sundry Reasons, which I mentioned.----Particularly that of the Acts not passing without a suspending Clause. I found his Lordship very positive never to suffer any Act to take Place in *New-England* for making Money, without its first being approv'd of here: I have been with other Lords of his Majesty's Council who seem fixt in that Opinion; since the Report is in the Manner it is, and the Lords so inclin'd, I am advis'd not to move for an Order of Council to be made upon it, but to wait for a Return from *New-England*, when I may be furnish'd with Arguments from thence to induce their Lordships to make an Alteration.

I am, SIR, your most obliged Servant,
FRANCIS WILKS.

Governor *BELCHER.*

To the KING'S *most Excellent* MAJESTY.

May it please your Majesty,

WE have lately received from Mr. *Belcher* your Majesty's Governour of the *Massachusetts-Bay* in *New-England*, a Bill passed in the Assembly of that Province, a Copy whereof is hereunto annex'd, for the Emission of 60,000 *l.* in Bills of Credit, of a new Form and Tenour to be redeemed by Silver and Gold, to which he did not give his Assent; For as much as the same would have been contrary to your Majesty's 16th Instruction to him, and to an additional Instruction to him in One Thousand Seven Hundred and Thirty-seven, to inforce the former, whereby he is forbidden "To give his Assent to or pass "any Act in that Province whereby Bills of Credit may be struck "or issued in lieu of Money, without a Clause be inserted in such "Act, declaring that the same shall not take Effect until it shall "have been confirm'd by your Majesty, except only for the an-"nual Support of the Government, not exceeding 30,000 *l.* and "that Permission to continue only during your Majesty's Pleasure, "and to take especial Care that no more than 30,000 *l.* of such "Bills be ever current at one and the same Time."

Upon Consideration of this Bill we found the same contain'd many Particulars that might affect the British Trade, wherefore we thought it proper to take the Sentiments of the British Merchants concerned in the Trade to that Colony upon said Bill; whereupon they have made the following Observations.

1. That the Government of the *Massachusetts-Bay* have emitted Bills of Credit lent on Mortgages of Land (called Loans) by several Acts of Assembly in the Years 1714, 1716, 1720 and 1727, to the Amount of 260,000 *l.* redeemable in certain Periods of Time; of which there is about 60,000 *l.* or 70,000 *l.* still outstanding, tho' the Time for Payment of the last of these Emissions is expired, and the first Emission ought to have been paid more than 20 Years ago.

2d. As large and sudden Emissions of such Paper-Currency have been detrimental to *Great Britain*, the Merchants desire that all the old Bills emitted before the Year 1727, may be forthwith called in and sunk, and that the Government of the *Massachusetts-Bay* may be suffered to omit anually so much and no more of this intended 60,000 *l.* than shall be equal in Value to the Sums that shall be paid off and sunk in each Year from the Paper-Money made current since the Year 1727.

3d. As the Merchants by Virtue of this Law would be obliged to take the New Bills at the Rate of 6 s. and 8 d. per Ounce of Silver, which is at present more than equal to 20 s. of the old outstanding Bills, they apprehend that Care should be taken that the said new Bills may be fixed in their Valne, and no Person obliged to take them at a higher Rate, under severe Penalties.

4th. It being enacted by this projected Law, that the Borrowers of those new Bills shall pay the 10th Part of the Sum borrowed, at the End of each Year for 10 Years, in Silver and Gold Coin, the Silver at 6 *s.* and 8 *d.* per Ounce, to the Trustees to be appointed for that Purpose, in whose Hands it is to remain till 5 Years are paid in, and then the Trustees are to pay one half of the Value of all the Bills to the Possessors in such Silver and Gold as they shall have received.

The Merchants apprehend that the locking up so much Bullion for so long a Time must be detrimental to the Country, and that when they come to pay so large a Sum in Specie out of the Treasury at one Time it must have an Effect on the Exchange, and would lower it at once to the Prejudice of *New-England*; and that any Thing occasioning a sudden fluctuation is destructive to Trade; but as the Certainty of Silver and Gold at the End of the Term is the only Method to give such Bills a real Value, therefore they propose

propoſe that the Payments ſhould be at the End of 3, 6, and 10 Years.

5thly. As the Truſtees for this new Emiſſion are to be nominated by the Aſſembly, the Merchants propoſe that Proviſion be made for the Deficiences that may ariſe from Misfortunes attending the Borrowers, and that the Province may at the End of each Term of 3, 6 and 10 Years, make good in Silver and Gold any Deficiency that may have ariſen from Inſolvency of the Borrowers.

And whereas the ſaid intended Act has enacted, That all Debts, Bargains, Promiſſary Notes and Obligations, made or to be made for and eſpecially payable in Silver andGold, ſhall and may nevertheleſs be diſcharged by the Bills of Credit by this Act to be emitted.

The Merchants deſire that Specialties made or to be made may not be diſannulled by any Act of this Nature.

But they do agree, that without an Emiſſion of new Bills to the Value mentioned in the intended Act, it will be very difficult to carry on the Trade and circulate the Buſineſs of that Province.

Wherefore we are humbly of Opinion that your Majeſty may be graciouſly pleas'd to enlarge your Royal Inſtructions upon this Head, and to impower your Majeſty's Governor of the *Maſſachuſetts-Bay* to give his Aſſent to an Act for iſſuing the Sum mentioned in the ſaid projected Bill, upon the following Conditions.

1ſt. That no new Bill be made current until all the Bills emitted before the Year 1727, be called in and ſunk.

2d. That no more of theſe new intended Bills be iſſued than in Proportion to what they ſhall pay off and ſink in each Year, from the Paper-Money now current there by Emiſſions ſince the Year 1727, and that all the Acts for redeeming ſuch Paper Bills in 1739, 1740, and 1741, be ſtrictly complyed with, and ſuch Bills all ſunk accordingly.

3d. As the new projected Bills of 6 s. and 8 d. are propoſed to be equal to an Ounce of Silver, therefore Proviſion muſt be made to fix them at that Value, and that they ſhall not be paid or received at an higher or lower Rate.

4th. To prevent too great a Fluctuation in Exchange, the new projected Bills ſhall be redeem'd at three Periods, at the End of 3, 6 and 10 Years, inſtead of two Periods at the End of 5 and 10 Years, as propos'd in the preſent Draught.

And as the Truſtees for this new Emiſſion are to be named by the Aſſembly, proper Proviſion ſhould be made for making good any Deficiency that may ariſe by the Inſolvency of Borrowers or any other Misfortune whatever at the End of each Term.

6th. That no ſpecial Contracts made or to be made for Gold, Silver or any other Species or Merchandize, be in any wiſe affected by this Act.

And to prevent any other Inconveniences from ſuch a Law not hitherto foreſeen, that the ſame may not be aſſented to by the Governor without a Clauſe be there inſerted to hinder the ſame from taking Effect, till ſuch Time as your Majeſty's Pleaſure thereupon ſhall be declared.

All which is moſt humbly Submitted.

WHITEHALL,
April 11. 1739.

Monſon,
Edward Aſhe,
Ja. Brudenell,
Ar. Croft,
R. Plumer.

YOU will Gentlemen, pleaſe to conſider of this Affair and let me know whether you think any Thing more may be done in it for the Service of the Province. J. BELCHER.

Octob. 5. 1739

VIENNA, July 28. In Anſwer to the Repreſentations made by the Swediſh Miniſter in Reſpect to the Aſſaſſination of the Baron de Sinclair, he has been inform'd, that it was perpetrated by two Ruſſian Soldiers, who it was preſumed had gone beyond their Orders, which was only to have ſtopt the ſaid Baron, he being charged with Commiſſions very dangerous to both the Imperial and the Ruſſian Courts; and that this had been concerted between M. Skinner, his Imperial Majeſty's Reſident at Warſaw, and the Sieur Colembiewſky, the Ruſſian Reſident at the ſame Place.

LONDON, July 30. By the Ships arrived this Year from Bombay, we have the following authentick Copy of Thamas Kouli Kan, now Schach Nadir, his Manifeſto or Declaration againſt the great Mogul. Tranſlated from the Perſian.

'My Will tends to remain in Peace, but the Divine Will 'allots War in theſe Parts, by which I ſee myſelf engag'd in 'great Confuſion and Alarms.

'In the wide Sea of this periſhable World, I ſeem, as it were, 'mounted on the Back of an Allegator, from which I am not 'without Fear of being overſet, and going down to the Bottom.'

This is call'd by the Indians a deſtroying Humility.

Since the Receipt of the above Manifeſto, we have receiv'd by the Ships from Madraſs, the following Account of his Progreſs againſt the Mogul.

'Schach Nadir, having ſubdued two great Cities, one call'd 'Cabull and the other Jullab d, and ſince paſs'd the River Ca-'tat, has enter'd the City Piſhaws, and there pitch'd his Camp, 'where he alſo had an Encounter with a very powerful Army 'from the Mogul, which he defeated; whereupon he, with his 'great Men at Delly, are much alarm'd. He has ſince order'd 'Naſa Moll Molla, his Vizir, to ſummon in the Nobility, with '300,000 Horſe, to meet Schach Nadir; and Advices ſince 'receiv'd ſay, that before this Mooriſh Army can meet Schach 'Nadir, he may have taken another City call'd Lahore, other 'Letters ſay he is already at Delly.

KILKENNY, Auguſt 15. This Day ended the Aſſizes here, where four Fellons were convicted; and particularly the infamous James Moran; who was proclaim'd, and who, to the ſurpriſe of all the County, had the Aſſurance to deliver himſelf up, with this wonderful Circumſtance, That the Juſtice who committed him, had that Confidence in Mr. Moran, that he gave him his Mittimus in his Hand, which ſaid Moran brought with him, knock'd at the Door, and delivered it with his Body to the Jailer. This ſame Fellow has been the moſt remarkable Perſon of his Profeſſion that ever was in Ireland, or perhaps in any other Country. He ſerved 6 Years to his Brother-in-Law, Toby Purcel, alias Philip, who was the moſt notorious Thief of his Time, 'till ſupplanted by James, who about 30 Years ſince, ſet up for himſelf, and made ſuch a Figure in this County as no one made before him, he being rather an Employer of Thieves than a Thief. He always took care to buy the Cattle before Witneſſes for that Purpoſe, in open Fair. He ſtood his Trial in this County 17 Times; eleven of which one particular Man was upon his Jury. He was tried upon ſeveral Indictments, but one time in particular, there was no leſs than 16 againſt him. He acted like Jonathan Wild, whoever loſt any thing, if they applied properly to him, were ſure to have Reſtitution: He bred his only Son up to his own Buſineſs, who it is ſaid, was the Perſon that ſtole the Cattle, for which his Father was now condemn'd; and was ſo good a Proficient, that at the Age of 14, he was tried for ſtealing a Mare, Saddle and Bridle out of an Inn in this Town. The Father has lived theſe 30 Years near Gowran, was hired to a Gentleman, and is now reputed to be worth 500l. but does not ſpeak Engliſh. 'Tis ſaid, that when he was going with his Mittimus to Goal, he called upon one of his Brothers in Iniquity, and ſettled Accounts with him, and at their Parting, his Friend, after giving him a Bottle of Wine to comfort him, expreſſed himſelf in the moſt tender Manner, and ſaid, 'Well dear James, let the World ſay 'what they will, my Father and I, have found thee an honeſt 'Man,' and then embraced him kindly. However the whole

Country

Country are moſt joyful at his Conviction, and every Body, both Rich and Poor were in a terrible Alarm this Morning, on a Report, that a Gentleman who attended the Trial, was ſo ſoftened, and ſo fill'd with an ill-tim'd Pity, as to make Intereſt for a Pardon; But the Grand Jury went immediately and drew up a Remonſtrance, to prevent a favourable Report. The Country was the more alarmed, as there were two others convicted, who as they had not been concerned in above 25 Felonies to the Knowledge of the Country, muſt undoubtedly expect as much Favour as Moran.

EDINBURGH, Aug. 27. *The Maſter of a Veſſel lately arrived at Leith from the Bay of Biſcay, reports, that before he came away ſeveral French Privateers were out, with Deſign to cruize on the Britiſh Ships, with Spaniſh Colours.*

MARSEILLES, Aug. 13. *They are actually equipping at Toulon, ſome ſay 20 others 30 Men of War, &c. and that 500 Caulkers, and other Workmen, went thither two Days before from hence. Two Gallies and four half Gallies are returned from Corſica, and three from Italy to this Place.*

LONDON, Aug. 30. By a private Letter from India, by the Naſſau Capt. Hutchinſon, we have Advice, that the Great Mogul is totally defeated by Kouli Kan, and entirely diſpoſſeſs'd of all his Dominions, and has fled to the Engliſh Factory at Bengal for Refuge.

Sept. 5. It's ſaid that an Expreſs arrived yeſterday from Paris with Advice, that the Court of France had declar'd it's Intention of taking Part with Spain in the preſent Differences between this Court and Spain.

Sept. 10. Thurſday by an Expreſs came Advice, that the Turks had made a general Aſſault on Belgrade, and were repulſed by the Garriſon; at the ſame Time Count Wallis attacked them with 20000 Men, which cauſed a Bloody Action for five Hours, whereby the Turks were totally routed, with the Loſs of 16000 Men, and great Part of their Camp, with 100 Pieces of Cannon.

Sept. 11. Yeſterday Advice came, that ſeveral Spaniſh Privateers were ſeen off the Bay of Biſcay, and at the Mouth of the Tagus, cruizing for Engliſh Ships.

PHILADELPHIA, Novemb. 8.

Laſt Week the Rev. Mr WHITEFIELD landed from *London* at *Lewes-Town* in *Suſſex* County, where he preach'd; and arrived in this City on *Friday* Night; on *Sunday*, and every Day ſince he has preach'd in the Church: And on *Monday* he deſigns (God willing) to ſet out for *New-York*, and return hither the Week after, and then proceed by Land thro' *Maryland*, *Virginia* and *Carolina* to *Georgia*.

We hear from *Charleſtown* in *South-Carolina*, that a Body of Angola Negroes roſe upon the Country lately, plunder'd a Store at *Stono* of a Quantity of Arms and Ammunition, and murder'd 21 white People, Men, Women and Children before they were ſuppreſs'd: That 47 of the Rebels were executed, ſome gibbeted and the Heads of others fix'd on Poles in different Parts, for a Terror to the reſt.

They write alſo that a Purple Fever has been epidemical there, and more mortal than the Small Pox; but its Violence was abated before the Letters came away.
